Dear children, parents and guardians,

The eco-committee at St Mary's are organising a competition for all the children in KS1 and KS2.

We are asking children to design a **poster** to go on the **paper recycling bins**. The eco-committee will vote for the best design in KS1 and KS2 and it will be on every paper bin in the school.

We are also asking children to design a **small sign** to be displayed by light switches in the school to remind people to **switch off lights and electronic devices**. Again, one design will be chosen for KS1 and another for KS2 and they will be used in school.

We have not sent out a paper copy of this letter on purpose because the committee think it is a waste of paper. So if you are interested in taking part in the competition, you could print this letter at home (if you need to) and create your design and give it to the eco-warrior in your class.

Below, we have included some pictures you might want to use for your poster or sign. Feel free to use them as inspiration or you could cut them out and stick them on your design.

Of course, you can create a poster and a sign if you like. In fact, we would love everybody to take part and kick-start the new year with a burst of green creativity!

Please hand your creation on a sheet of A4 to your eco-rep by 7 January 2019 at the latest.

All the best,
The eco-committee
